

# Job Notification Form, IIT Delhi

## Company Overview

**Name:** CTA APPARELS PVT LTD

**Website:** [www.ctaapparels.com](http://www.ctaapparels.com)

**Company Type:** Other (Garment Manufacturing and Expo)

**Description:** CTA Apparels is a brand of repute in the segment of garment manufacturing and export in India. Established in 1993, we have come up as a leading name to be reckoned with. This has been made possible through continued hard work and passion to achieve more and better continuously in last 25 years. CTA Apparels is presently positioned as a vertically integrated and star rated exporter of garments and textile products to world's leading fashion brands which rely on our high quality production capacities to define the new trends of age. These statistics boost our confidence and we are moving ahead with enthusiasm and dedication. With an annual export turnover of USD 35 million and the tag of a star rated exporter under GOI policy, we are marching ahead in full vigour and serving the clients around the world satisfactorily. We adhere to all the rules and laws of the land and follow the norms relating to export and fair trade practice at the international level. Alongside, we have managed well to attend to our corporate social responsibility & labour welfare commitment and have responded effectively towards all the protocols of ethical production, environmental sustainability and protection and transparency through an established charter. CTA Apparels operates 2 full fledged garment manufacturing units which are located in Noida near New Delhi and a textile processing plant in Pilkhuwa. A total of 5000+ workforce is employed by us including the design professionals who draw the fashion trends of tomorrow, operating from our state of the art design studio. These manufacturing units are engaged in the production of woven, knitted garments and home furnishing products. All units are equipped with the cutting edge technology and machines that offer high turnout capacity. No wonder, we boast of peak production capacity of 6,00,000 pieces/month!
