

Job Notification Form, IIT Delhi

Company Overview

Name: Flipkart Internet Pvt Ltd

Website: www.flipkart.com

Company Type: Other (ECommerce)

Description: Flipkart is made of people who love being themselves and their independence of thoughts pave way for disruptive innovation on tech, biz and ops fronts. We are looking for engineers who are well rounded - quality conscious, product thinkers, and business cognizant and smart – not mere coders. Engineers get to significantly amplify their impact with the scale that Flipkart operates at. The same scale also demands the engineers to produce super-efficient solutions.

Job Details

Designation: Data Scientist

Type: Information Technology

Place of Posting: Bengaluru

Job Details: The Gig: Data Scientist @ Flipkart
If reliability and scalability defined the previous decade of tech evolution, intelligence and adaptation (aka personalization) is going to define the coming decade. Systemic intelligence and data driven products are going to be most important aspects for creating unparalleled customer experience.
What this job entails:
The Data Science team at Flipkart is going forward with mission of building systemic intelligence across Flipkart product and ecosystem. Being the largest e-commerce marketplace and the most used e-commerce app in India, exposes us to the richest possible data about the Indian consumer.
Along with that we have data from huge product selection and large number of sellers. The ~ 2.6 Petabytes of data generated per day has complete mix of data types in terms of numerical data, structured text, unstructured text, images, audio etc. which gives us an opportunity to explore wide range of problems to solve.

Get the latest updates about Life@Flipkart!
Some of the problems we are focusing on currently are::
☐ Product discovery along with personalization and intent modeling,
☐ Demand shaping and planning,
☐ Heterogeneous networks for consumer, product & seller interactions,
☐ Customer insights,
☐ Catalog enhancement and product insights,
☐ Customer emotion detection and right response matching.

☐ Customer emotion detection and right response matching,

☐ Fulfillment automation,

☐ Optimization of last mile delivery,

☐ Self-healing systems, and more.

Data Science team is also leveraging partnerships with Indian and foreign universities like

CMU, IIT's, IISc and IIIT's for pushing state of the art research for these problems.

At Flipkart, Data scientists are embedded with the engineering and product team for the

problem they are working on. This ensures that the data science solutions are envisioned

along with product delivery.

We have a very flat structure within Data Science team, which enables us to focus on

excellence and create a deep sense of ownership. Also, being a young team, we are

able to democratize the process of problem selection.

Our techniques span classification, clustering, matrix factorization, graphical models,

networks and graph algorithms, topic modelling, image processing, deep learning and NLP,

each one of them being exercised at a large scale.

If you want to challenge the status quo and want to impact the wide-open landscape in India,

Flipkart Data Science team is the place for you!

Salary Details

CTC:	3,100,000 INR Per Annum
Gross:	2,200,000 INR Per Annum
CTC Breakup:	<p>Btech : Base Pay: 22,00,000 Variable: 2,20,000 ESOPs worth 5,07,734 Benefits worth: 1,78,619 = Total: 31,06,353</p> <p>Mtech/MSR: Base Pay: 25,00,000 Variable Pay: 2,50,000 ESOPs worth: 10,04,891 Benefits worth: 1,85,112 = Total CTC: 39,40,003</p>

Selection Process

Resume Shortlist:	Yes
Written Test:	No
Online Test:	Yes
Group Discussion:	No
Medical Test:	No
Personal Interview:	Yes
No. of Rounds:	3
No. of Offers:	5

Eligibility

Recruiting PHDs:	No
Eligible Departments:	<p>B.Tech in Computer Science & Engineering, B.Tech in Electrical Engineering, B.Tech in Electrical Engineering (Power and Automation), B.Tech in Mathematics & Computing, B.Tech and M.Tech in Computer Science & Engineering, B.Tech and M.Tech in Mathematics & Computing, M.Tech in Communications Engineering, M.Tech in Computer Science & Engineering, M.Tech in Computer Technology, M.Tech in Control & Automation, M.Tech in Integrated Electronics & Circuits, M.Tech in Power Electronics, Electrical Machines & Drives, M.Tech in Power Systems, M.Sc in Mathematics, M.S.(R) in Computer Science & Engineering, M.S. (R) in Electrical Engineering</p>
