<b>Name:</b>	FINMECHANICS INDIA PVT LTD
<b>Website:</b>	<a href="http://www.finmechanics.com">www.finmechanics.com</a>
<b>Company Type:</b>	Consulting
<b>Description:</b>	FinMechanics provides consulting services and technology solutions to Treasury, Capital Markets, Commodity Markets and Risk departments of banks and financial institutions.

## Job Details

**Designation:** Associate Consultant

**Type:** Consulting

**Place of Posting:** Mumbai

**Job Details:** About Finmechanics:

Finmechanics provides consulting services and technology solutions to Treasury, Capital Markets, Commodity Markets and Risk departments of banks and financial institutions. It is headquartered in Singapore and also has offices in Mumbai, Dubai, Amsterdam, London, and Sydney.

We work on all the areas of a bank's treasury starting from pricing tools, market data management, trading and order management capabilities, risk management, trade processing, settlement and accounting systems. In the Enterprise Risk space, our Subject Matter Experts help risk departments evaluate Value at Risk, perform Asset Liability Management and set up Limit Monitoring frameworks for market, credit and trading risks. In the consulting space, we provide an exhaustive range of services on leading Treasury solutions and pricing libraries like Numerix, Murex, Kondor+, Calypso, etc.

In the last 14 years, we have worked with Global and Regional Banks & Financial Institutions in Asia Pacific, UAE, Africa, Europe and the US

**Job Description:**

- Solve Problems and provide Solutions to Treasury and Risk Departments of Financial Institutions.

- Design and develop Applications with rich functional content for Capital Markets, Treasury and Risk Divisions.

- Implement Projects focused on software solutions popular in the Financial Services Industry, specifically treasury (e.g. FM Converge, Numerix, Calypso, Kondor+, Murex).

- Lead Project Implementations with a hands-on approach to ensure the delivery of projects within time and quality constraints.

- Build working relationships with sponsors, senior business managers and key end users to address various business requirements.

- Continuously build knowledge on Financial Markets, Instruments, Models, Risk Management, Operations and Technology.

- Re-engineer processes to achieve best-in-class standards.

- Identify business opportunities in new/existing markets. Understand prospective clients' requirements and aid proposing best solutions. Be responsible for translating proposals into projects.

#### Requirements:

- A self-starter who assumes responsibility naturally

- Have complete ownership of assignments undertaken and thrive under responsibilities

- Good mathematical skills with logical thinking

- A true implementation consultant with strong analytical and problem solving skills

- Motivated to provide clients with concrete solutions with a natural interest in service quality

- An effective communicator – in public and in a team - with the ability to think, write and present in a logical and structured way

- Have an interest in the Financial Sector

- Passionate about technology and strong programming skills in at least 1 programming language

**Joining By:** 1 August 2022
