

# Job Notification Form, IIT Delhi

## Company Overview

<b>Name:</b>	Rivigo
<b>Website:</b>	<a href="https://www.rivigo.com/">https://www.rivigo.com/</a>
<b>Company Type:</b>	Core (Technical)
<b>Description:</b>	<p>We are a technology-enabled company that is shaping the future of logistics for the world. Founded in 2014, we are transforming the sector with our global-first driver relay model made possible through a unique mix of next generation data science and operational excellence.</p> <p>Grounded in the mission of making logistics human, we have fundamentally changed the truck driver's job from a 'months-away-from-home' job to a 'day' job. Unlike conventional truck drivers, relay pilots drive from pitstop to pitstop (under 300 kms) and return to their families the same day, thus, creating huge social dividend.</p> <p>Relay trucking also ensures 50-70% reduction in turnaround time and highest reliability for clients, helping them reinvent their business models – serving new markets, reducing inventory and significantly cutting costs. Listed among the world's top emerging businesses and backed by marquee investors, we are working on a vision to build a completely technology-enabled RaaS (Relay as a service) marketplace to define the way goods move on roads in India and the world</p>

## Job Details
