

Job Notification Form, IIT Delhi

Company Overview

Name: Da Vinci Derivatives B.V.

Website: <https://davinciderivatives.com/>

Company Type: Finance

Description: Da Vinci Derivatives was founded in 2015 by a group of young trading professionals and has since been growing successfully. With our own capital and sound risk awareness we trade listed derivatives on markets globally. We identify opportunities and trade based on in-house developed strategies, and we provide liquidity and efficiency to the markets.

Our philosophy towards work is best captured by the saying “Be good, work hard and great things will happen”.

We are meritocratic by nature and believe that empowering talent in our organization is the only way forward. We aim at attracting the most qualified people in the industry, train them, provide them with all the required tools, continuously challenge them and allow them to grow both professionally and personally.

Our business is highly innovative, IT driven and entrepreneurial by nature. Our goal is to become the best trading company in the world!

We are continuously looking for talented graduates with an academic technical background. If you like games and puzzles and are fascinated by the financial markets, take up the challenge and join our team!

Job Details

Designation: Graduate Developer

Type: Finance

Place of Posting: Amsterdam

Job Details: Da Vinci Derivatives is a unique proprietary trading firm, focussing on volatility trading, arbitrage and market making across major exchanges worldwide. We identify opportunities and trade based on in-house developed strategies, and we provide liquidity and efficiency to the markets.

Our philosophy towards work is best captured by the saying “Be good, work hard and great things will happen”. We are meritocratic by nature and believe that empowering talent in our organization is the only way forward. Our employees are our greatest asset and we are constantly looking for smart, talented and passionate people to strengthen our team and support our growth plans.

As a Software Engineer you will have direct, immediate, and large-scale impact on the company. Whether you focus on our trading algorithms or the architecture of the core components that form the backbone of our trading technology, your work will make a difference.

Responsibilities:

- Understanding, designing and implementing trading algorithms and strategies in close collaboration with Trading and Research
- Working closely with Trading, Research and MidOffice to automate and optimize

their workflows, making sure that 'the business' runs as effectively and efficiently as possible

- Various operational aspects, such as system deployment, monitoring and tweaking

Requirements:

- Smart, passionate, enthusiastic and skilled computer science student with a talent for simplicity and the drive to get things done
- Curiosity in computers and programming since a young age (available hobby projects on GitHub is a plus)
- Eagerness to learn and interest in trading
- Practical and results-driven attitude and seriousness about code quality
- Ability to work well with others, including other departments, such as Trading and Research

Benefits:

- Training in C++ & Python and development best practices
- You will be mentored by an experienced developer
- A once in a lifetime opportunity to be part of a successful and fast-growing young company
- A very exciting and dynamic work environment
- The freedom to come up with great ideas and the space to push these to completion
- 60KE base salary and 30kE end of the year bonus after permanent contract is offered
- Outstanding performance is also rewarded with long-term share holding in company
- For people coming from abroad we provide a relocation package and expat service
- Meals during work hours
- Reimbursement of travel costs
- Sponsored gym membership
- Inhouse game room (pool table, board games and console games)
