

# Job Notification Form, IIT Delhi

## Company Overview

<b>Name:</b>	Indian Political Action Committee (I-PAC)
<b>Website:</b>	<a href="https://www.indianpac.com/">https://www.indianpac.com/</a>
<b>Company Type:</b>	Consulting
<b>Description:</b>	<p>Indian Political Action Committee (I-PAC) is India's first &amp; largest cross-party political advocacy group, widely credited to have revolutionized election campaigning in India.</p> <p>I-PAC is the platform of choice for students and young professionals to participate in and make a meaningful contribution to political affairs, grassroots development and governance of the country without necessarily being part of a political party. Started as Citizens for Accountable Governance (CAG) in 2013, I-PAC has brought together some of the best minds from diverse academic and professional backgrounds and has provided them with a unique opportunity to closely engage in the election process and influence policymaking in India.</p>

## Job Details

**Designation:** Product Developer

**Type:** Core (Technical)

**Place of Posting:** Hyderabad

**Job Details:** About the Position:

We are looking for an analytical, result-driven Full Stack developer who wants to touch the lives of millions of people through highly scalable and robust code. As a Full Stack Developer, you will be responsible for delivering full-fledged scalable web applications with state-of-art technologies and tools.

The job requires you to work closely with the Campaign Teams to design web/dashboard architecture. The job requires you to working efficiently in a fast-paced, agile, and challenging environment, and providing regular updates.

Job Responsibilities:

- Understand business requirements and translate them into an efficient and effective server-side application
- Develop scalable and high-performance database designs
- Develop and deploy highly responsive and efficient APIs
- Collaborate with team lead(s), front-end developers, and other team members in an agile environment for enhancing features, fixing bugs, and developing reusable RESTful APIs
- Optimization of the applications for maximum speed and scalability
- Keep up to date on the latest industry trends in upcoming technologies

Minimum Qualifications:

- Bachelor's degree in Computer Science, a related technical field of study, or equivalent practical experience.
- Basic knowledge in front end as well as back end development.
- Proficiency with fundamental front-end languages such as HTML, CSS, jQuery, and JavaScript.
- Familiarity with JavaScript frameworks such as Angular JS, React and Vue JS.
- Proficiency in PHP language and framework.

Preferred Qualifications:

- Knowledge and practical experience in WordPress, customizing WordPress themes and troubleshooting.
- Experience in designing and developing responsive design websites.
- Good knowledge of Git, Bitbucket, JIRA etc.
- Basic understanding of how to interact with RESTful APIs and formats (JSON, XML)
- Familiarity with database technology such as Relational and Non-relational database
- Must be a good team player, should have good written, verbal communication skills and problem-solving skills.

**Joining By:** 1 June 2022
