

Job Notification Form, IIT Delhi

Company Overview

Name: Khel Group

Website: <http://thekhelgroup.com/>

Company Type: Other (Gaming)

Description: Khel Group was established in 2012 and was amongst the first Indian companies to enter the Real Money Gaming space with Rummy as their first offering. The vision was to provide the users with applications and games made in India that are entertaining, secure, and reliable. Khel Group today is amongst the most trusted names when it comes to playing Online Rummy and has served more than 50 Million Rummy users over the last 9 years.

Khel Group has expanded its offerings over the last 2 years with a foray into the Fantasy space through Khel Champs and a casual gaming platform called Khel Factory.

Khel Group also holds the Indian licensing and operational rights for the leading global Poker brand - PokerStars.

Khel Group intends to be amongst the top 3 players in the Real Money Gaming space in India by 2024 and has a roadmap to take their platforms and applications outside India by the end of 2021.

Job Details: The Khel Group

Company Overview

Khel Group was established in 2012 and was one of the first Indian companies to enter the Real Money Gaming space, with launching KhelPlay Rummy as their first offering. We are now one of the most trusted names in real money gaming, having served more than 7.5 Million players over the last 9 years across all our platforms. Over the last two years, the company has expanded its offerings with a foray into the Fantasy space via Khel Champs and a casual gaming platform called Khel Factory. The company also partners with the leading global poker brand, PokerStars.

Job Location: Art Guild House, Next Phoenix Market City Mall, Kurla, Mumbai.

Job Description and KPI's: Product Trainee

Role Objective: The Product Trainee will be working under the Product Manager / Product Lead / CTO and will be responsible for continuous benchmarking and improving the product offerings with focus on product differentiation to improve

user experience and user stickiness.

Responsibilities:

1. Gain a deep understanding of customer experience, identify and fill product gaps and generate new ideas that can help grow market share, improve customer experience and add business value.
2. Collaborate with other internal teams to understand features, integrations, modules, upgradation, and detailed requirements.
3. Continuously benchmark with the best practices by Competitors and the latest Technology, Architecture, UI & UX practices, tools within and outside the industry.
4. Understand the product vision & market demand, customers, target audience, competition, user personas, and put down all the product features, UI, UX, automation possibilities, integrations that are must-have and good-to-have.
5. Scope and prioritize product development strategy based on business and customer impact.
6. Build & translate product strategy into a detailed product roadmap with features, integrations, modules, upgradation, detailed requirements and mock-ups. Create a buy-in for the product roadmap from key stakeholders.
7. Prepare a Product Requirement Document (PRD) and create a development roadmap in coordination with the product team or vendors.
8. Benchmark and evaluate various 3rd party tools that can be integrated to achieve feature / functionality requirements without being heavily dependent on the development team.
9. Proactively organize and facilitate team meetings, sprints, scrums, and other meetings whenever necessary to keep the team updated with the status of the project.
10. Ensure proper documentation is done by the development and testing team for product architecture, features, linkages, testing parameters and test results, known bugs, frequently faced development roadblocks, etc.
11. Drive product launches including working with cross functional teams and vendors. Ensure proper clearances are sought from the testing team. Resolve team impediments and issues, if any, as and when they occur.

KPI's:

1. No. of unique features/functionalities/offerings identified and worked upon in every quarter
2. No. of external tools used, and time saved in development roadmap
3. PRD Rating Index
4. ROI of every unique features/functionalities/offering deployed
