

Job Notification Form, IIT Delhi

Company Overview

Name: Niyo Solutions Inc.

Website: goniyo.com

Company Type: Core (Technical)

Description: Company: Niyo was founded in 2015 with the vision of changing the way Indians approach their finances - no matter where they work, what they earn, or how tech-savvy they are. To date, we've raised \$49.3 Million in funding, and have maintained a sharp focus on identifying customers' banking pain points and crafting solutions that improve their experience. We currently operate in 4 major business lines:

1. Niyo Bharat - a prepaid salary card and digital banking product for blue collar workers
2. Niyo Global - a zero forex markup travel card that works anywhere in the world
3. NiyoX - a co-branded savings account with industry-best interest rates, 0 maintenance charges, and a host of exciting features
4. Niyo Money - a wealth management platform with 0 commission mutual funds, domestic stocks, and more.

Job Details

Designation: Technical Product Manager

Type: Other (Product Management)

Place of Posting: Bengaluru

Job Details: At Niyo, we have various internal API-based platform products and services (e.g. a common Mutual Funds platform) which Niyo's consumer-facing businesses (e.g. Niyo Money, NiyoX, Niyo Bharat) use as a base to build tailored consumer experiences suited to their respective target audience.

We are looking for a tech-oriented Product Manager (Platform) to help us scope, build and maintain these platform products/services that all consumer-facing Niyo products depend on.

Ideal candidate would have 3+ years of experience in Product Management with a background in software development/management.

Key Responsibilities:

Work with all internal stake-holders (consumer-facing product teams, internal operations and tech teams, business etc) to identify common products and services that should be platformized, pitch ideas and gain buy-in from stakeholders.

Gain/have domain knowledge of fintech operations like KYC, payments, refunds, transactions etc

Create, maintain and own the platform product roadmap, write PRDs, plan and execute sprints with the engineering team to ensure timely delivery of the roadmap.

Communication with all stakeholders for upcoming, ongoing and existing features/services to ensure readiness, completeness and adoption.

Track product adoption, funnel conversions, A/B tests etc and optimise them to achieve business and product objectives.

Skills:

- Should have good understanding of technology, architecture, APIs etc
- Ability to gain in-depth knowledge of financial products and operations
- Ability to work with multiple teams and stakeholders on a continuous basis
- Good communication, documentation and project management skills
- Good data analytics skills
- Ability to work alone and as part of a team

Experience:

- At least 3 years of experience in product management.
- Prior experience with managing internal/B2B/SaaS products.
- Background in software development/management.

Joining By: 6 June 2022
