### Job Details:

Edge Focus Partners, a Chicago-based FinTech firm, is an investment company that connects investors with the rapidly growing consumer lending marketplace. We are a relatively new firm with a distinguished track record of success behind us offering investors stable, superior returns.

Our greatest strength is our team of highly motivated individuals working in a super collaborative flat hierarchy. We strive as a team to generate "edge" wherever possible, and stay ahead of the competition. For this, we are looking for highly motivated individuals with advanced programming and mathematical skills. Our culture gives new graduates the unique opportunity to realize their potential, and create a significant impact in a short period.

#### Responsibilities:

- Quantitative model implementation
- Support research and execution infrastructure
- Create and maintain databases and system architecture
- Analyze and optimize system performance

#### Requirements:

- Strong programming experience in Python and C++
- Strong background in algorithms and data structures
- Familiarity with AWS (EC2, S3, etc.) encouraged
- Desire to solve practical problems algorithmically at scale
- Exceptionally detail oriented
- Skilled at code documentation and unit testing
- No prior trading or investment experience required

<b>Joining By:</b>	1 June 2022
