Company Overview

Name:	NoBroker Technologies Solutions Private Limited
Website:	www.nobroker.com
Company Type:	Information Technology

Description:

NoBroker is making the entire real-estate transaction journey seamless with the help of technology. The huge amount of data we generate on the platform helps us to use Machine Learning and Artificial Intelligence leading to faster closures and customized offerings for every customer. The support provided to us by our investors is a testimonial to our ongoing tech innovation.

NoBroker was founded by IIT Bombay, IIT Kanpur & IIM Ahmedabad alumni in 2014 and have raised $151M till date by well-known investors such as General Atlantic, Tiger Global, Saif Partners who are known for their tech investments across the globe and have invested in companies like Facebook, Flipkart to name a few.

NoBroker Pay, NoBroker Hood, NoBroker Home Services, and several such innovations are deepening the engagement of owners, tenants, buyers, and community residents with its platform making it a go-to-destination beyond its core offering of rental and sale transactions. Akhil Gupta, Amit Kumar Agarwal, and Saurabh Garg are strengthening their leadership position in this huge segment."

NoBroker is a one-stop-shop for the entire real estate transaction journey ranging from the rental, sale, or resale to post-transaction services like loans, packers and movers, legal documentation, online rent payment, interiors, etc. NoBroker currently operates across six cities including Mumbai, Bangalore, Pune, Chennai, Hyderabad, and Delhi-NCR.

NoBroker had acquired society management and ERP solutions company Society Connect in an all-cash deal in February 2020 to strengthen their Visitor and Society Management app NoBrokerHood, making it a single app that any society would need. We are dedicated to solve a problem that is unique to India and build India's largest real-estate technology platform that makes transactions affordable and hassle-free. We have been tripling our revenue every year. Our growth across verticals tells us that our unique model is solving a real customer problem.
