Job Notification Form, IIT Delhi

Company Overview

Name: Netcracker Technology

Website: www.netcracker.com

Company Type: Information Technology

Description: Company profile:
https://www.netcracker.com/company/about-netcracker.html
We offer Consulting, Professional, and Managed Services and the leading end-to-end software portfolio for telecommunications and cable customers.
Scale, Size, and Industry-Leading Growth
• Founded in 1993, profitably grew to the leading global OSS/BSS solution provider
• Merged with NEC ($40B Technology Powerhouse) in 2008, remained fully autonomous
• Consolidated NEC's telecom software assets under Netcracker in 2010
• Acquired Subex' Activation Business in 2011 and Convergys' IM Business in 2012
NEC and Netcracker Partnership
In 2008, after 15 years of independent growth, Netcracker was successfully acquired and became a wholly owned subsidiary of NEC Corporation. The combination brought together NEC's 100+ years of network expertise and innovation with Netcracker' s deep understanding of IT and aggressive go-to-market strategy.
Since then, NEC has consolidated all of its telecom software and services assets under Netcracker. These assets range from innovative applications and service platforms—including customer, service and network management—to NEC's comprehensive suite of professional services.
In February 2015, Netcracker and NEC launched a new initiative to address the opportunities associated with SDN and NFV for service providers. This joint initiative brings together the best of NEC's network innovation and Netcracker' s IT leadership and telecom expertise to deliver comprehensive end-to-end SDN/NFV solutions.
