About Simpl:

The thrill of working at a start-up that is starting to scale massively is something else.

Simpl (getsimpl.com) was formed in 2015 by Nitya Sharma, an investment banker from Wall

Street and Chaitra Chidanand, a tech executive from Silicon Valley, when they teamed up with a very

clear mission - to make money simple.

Simpl is the payment platform for the mobile-first world, and we're backed by some of the best names in

fintech globally (folks who have invested in Visa, Square and Transferwise), and has Joe Saunders, Ex

Chairman and CEO of Visa as a board member.

Everyone at Simpl is an internal entrepreneur who is given a lot of bandwidth and resources to

create the next breakthrough towards the long term vision of "making money Simpl". Our first

product is a payment platform that lets people buy instantly, anywhere online, and pay later. In

the background, Simpl uses big data for credit underwriting, risk and fraud modelling, all without

any paperwork, instructive forms, and enables Banks and Non-Bank Financial Companies to access a

whole new consumer market.

About the role:

The Data Science team is the core part of the engineering team at Simpl. We are

building products that
will help achieve us 10X scale in the next 1 year. Some of our upcoming projects include and is not
restricted to building recommendation engine, collections decision science models, referrals and loyalty
programs, building on the anomaly and community detection models to add to our application and
transaction fraud systems and many more exciting projects. We offer the opportunity to work in very
diverse fields of AI/ML including our R&D into tiny ML.
Must haves:
Bachelor's Degree in quantitative fields such as Engineering, Econometrics, Statistics or Mathematics.
☐Strong algorithmic problem-solving skills
☐A willingness to learn, explore, and continuously improve.
☐Insatiable Curiosity
☐Hands-on experience working on python (even if it is for the college assignment, especially if
you are one whose assignment was copied by the entire department)
☐Basic understanding of statistics – hypothesis testing, p-values, confidence intervals,
regression, classification, and optimization
